

“Each **wine** is identified by its name (“Parade D’Amour”), **appellation** (“Bordeaux”) and **vintage** (1990). Other information of interest about the wine is the **degree of alcohol** (11.5), where and **by whom it has been bottled** (“Mis en Bouteille par Amblard-Larolphe Negociant-Eleveur a Saint Andre de Cubzac (Gironde) - France”), the **certification of its appellation** if available (“Appellation Bordeaux Controlée”), and the **country it comes from** (produce of “France”).”

wine is another entity set with a **composite primary key** which consists of **Name**, **Appellation** & **Vintage**. It has other attributes: Alcohol_degree, Bottled_by, Appellation_cert and Country (denoted by **Others**).
